## Carbon Reduction Plan 2023

### 1 Commitment to Achieving Net Zero

ResQ is committed to achieving Net Zero emissions by 2050

A net zero commitment is a public pledge to achieve net zero emissions by 2050 or earlier. It's a long-term decarbonization strategy that requires organizations to reduce their greenhouse gas (GHG) emissions as much as possible and then balance out any remaining emissions with carbon removal.

Carbon Reduction Plan 2023

**3 Baseline Emissions Footprint**

Baseline emissions are a record of the greenhouse gases that have been produced in the past, prior to the introduction of any strategies to reduce our emissions.

Baseline emissions are the reference point against which emissions reduction can be measured

## Carbon Reduction Plan 2023

### 5 Financial Carbon Intensity

ResQ have used Turnover over the Total Emissions (tCO<sub>2</sub>e) to generate our Financial Carbon Intensity Metric.

### 6 Emissions Reduction Targets

ResQ have already brought into action several measures across Scopes 2 & 3, these include:

- All lights being replaced with LED Lighting
- Lighting controls such as Motion Sensor Technology
- Air Conditioning Controls have had their minimum and maximum ranges capped
- Air Conditioning Units on set timers
- Energy Efficient Air Conditioning Units
- Energy Efficient IT Equipment e.g. PC's and Monitors
- Increased Recycling and Waste Management Controls

### 7 Carbon Reduction Projects

#### **Completed Carbon Reduction Initiatives**

The following environmental management measures and projects have been completed or implemented since the 2021 baseline.

ResQ have already brought into action several measures, these include:

- All lights being replaced with LED Lighting
- Lighting controls such as Motion Sensor Technology
- Air Conditioning Controls have had their minimum and maximum ranges capped
- Air Conditioning Units on set timers
- Energy Efficient Air Conditioning Units
- Energy Efficient IT Equipment e.g. PC's and Monitors
- Achieved and maintained certification with ISO14001

In the future we hope to implement further measures such as:

- The introduction of a cycle to work scheme
- The introduction to a "car buddy" scheme where staff can carpool
- Encouraging of staff to use other forms of transport including public transportation.
- Remaining compliant within ISO14001 standards
